

Contact Energy Limited Electricity Customers

Nelson Area Electricity Pricing Plans

Effective from 1 March 2010

The following are Contact's new electricity pricing plans for customers in the Nelson area (connected to the Network Tasman network), effective from 1 March 2010.

These prices do not apply to customers in Nelson City, connected to the Nelson Electricity network.

Contact is making these changes to reflect changing costs of supplying electricity to customers.

All prices shown are stated exclusive of GST.

If you pay your account in full by the due date, you will receive a 10% prompt payment discount off these rates.

Conditions:

- This charge is multiplied by the daily assessed kWh figure.
- Low User is most suited to households whose electricity consumption is 8,000kWh or less per year. Low User options are only for homes used or intended for occupation mainly as a place of residence and that are the customer's principal place of residence.
- This price is multiplied by the capacity of the Installation.
- The Electricity Commission Levy is shown as a separate line item on customers' bills and is payable by all customers. However for unmetered customers only, the Electricity Commission Levy is included in the rate shown above.

Contact residential customers can collect Fly Buys points just by paying for the electricity they use everyday. This is not applicable to Contact residential PrePower customers.
